MEMBERSHIP INFORMATION

The mission of FACERS is to foster and maintain a high professional spirit among the members, provide instructive and entertaining programs of interest to the members, and to provide an organization through which the public works programs may be coordinated among Florida's Counties, Municipalities and other governmental agencies.

GET INVOLVED

FACERS COMMITTEES

GREENBOOK

The Florida Greenbook Advisory Committee is composed of four professional engineers within each of the Department of Transportation's seven district boundaries as described in Section 336.045(2), Florida Statutes (F.S.).

FDOT selects FACERS members to serve on this Committee and FACERS selects one member to serve as its representative on the Greenbook Committee.

LOCAL AGENCY PROGRAM/ COMMUNITY OF PRACTICE

The LAP Community of Practice is comprised of representatives of FDOT, FHWA, and local agencies working together to streamline the process for using federal funds for local transportation projects. This committee also serves as a forum for discussing any other FDOT/FHWA issues of concern to local public works organizations. The committee is managed by FDOT under the direction of State Local Programs Administrator (Samantha Samford) who also serves as FDOT's liaison to FACERS. FACERS is allocated three positions on the committee and Executive Liaison participates as an ex officio representative.

FACERS contributes to the development and revision of statewide standard specifications and guideline document; provides a forum for the exchange of ideas, technical information, and best practices; and, engages in related local, state and federal legislation to ensure every community of the best possible engineering, transportation and public works available. FACERS is an affiliate with the Florida Association of Counties (FAC) and the National Association of County Engineers (NACE).

Check out the FACERS website at www.facers.net

GET INVOLVED

FACERS COMMITTEES

TRAFFIC SIGNAL

Since the mid-1990's, FACERS has worked with FDOT to negotiate and update agreements related to the maintenance and reimbursement of costs for traffic signals and roadway lights on the state highway system. This committee is responsible for working with FDOT to address local concerns as these agreements are updated.

SCHOLARSHIP

FACERS, together with industry partners, has established endowed scholarships for students pursuing public works related degrees at four state universities in Florida:

University of Florida
University of Central Florida
University of South Florida
Florida International University

To view the FACERS Scholarship page, please click [HERE](#). The committee serves as liaison between each university and FACERS. Committee members also participate in various activities conducted by the universities to recognize recipients of the scholarships.
